Grant Deker — *OneStream Solution Architect*

FOUNDER, FULL CLEAR · AVAILABLE FOR C2C AND FIXED-SCOPE ENGAGEMENTS

10+ years in enterprise finance systems across banking, government contracting, retail, and transportation. Has led OneStream implementations, Hyperion-to-OneStream migrations, and version upgrades from application design, business rules, and data integration through UAT, go-live, and ongoing administration. A finance background paired with hands-on development and team leadership.

Core capabilities

- OneStream application design: dimensions, extensible dimensions, cubes, workflow and time profiles
- Business rules, member formulas, and API-driven calculations; remediation of deprecated rules
- Data integration: import/export automation, transformation rules, Smart Integration Connector
- Version upgrades (7.3 → 8.2, 7.4 → 9.4) and Hyperion-to-OneStream migration with parallel runs
- Security design: workflow-scoped groups, Azure AD, provisioning from HR and accounting data
- Consolidations, Parcel Services, account reconciliations, allocations, and TB validation
- Cube views, dashboards, and financial statement reporting
- UAT, user training, and leading developer and analyst teams

Experience

Penske — 2024 – PRESENT
Lead OneStream Developer, Sr. Manager. Leads a team of developers and analysts; automated imports and exports across 50+ workflows; HR-and accounting-integrated security; financial statement dashboards; upgrade 7.4 → 9.4.

Full Clear — 2023 – PRESENT
Founder & Principal. Independent OneStream consultancy; designed and built Basin, a consolidation and month-end close platform (basin.finance).

Mattress Firm — 2023 – 2024
Sr. OneStream Developer. 25+ custom financial models deployed and tested through UAT; rules, hierarchy, security, Parcel Services; upgrade 7.3 → 8.2; Smart Integration Connector and Azure AD.

GDIT — 2021 – 2023
Senior Business Analyst. Led the end-to-end OneStream implementation for consolidation, reporting, and planning; data integration, security, UAT, and training.

Capital One — 2019 – 2020
Senior Financial Analyst. Led the OneStream implementation across seven business areas, including a nine-month Hyperion migration with parallel runs.

Lockheed Martin — 2017 – 2019
Financial Analyst, QSACK & Associates. Navy ISIS Systems contract: earned value management, Hyperion and SAP S/4HANA reporting, DCMA/DCAA/DoD compliance.
